

## **The Conference on 3rd Gas Data Transparency held in Bali, Indonesia.**

Head adviser of the Department of Industry and Construction Statistics of the State Statistical Committee of the Republic of Azerbaijan - Nargiz Babayeva participated in the Conference on 3<sup>rd</sup> Gas Data

Transparency organized by JODI, APEC, Eurostat, IEA, IEF, OPEC, OLADE, UNSD and Ministry of Energy and Mineral Resources of Indonesia on 4-5 June, 2013 in Bali, Indonesia.

The 3rd Gas Data Transparency Conference consisted of five interactive sessions held over a day and a half. Various experts set the stage for a discussion on gas by reviewing the dynamic gas landscapes in different regions, and by highlighting the need for and value of monthly gas data. Representatives from the JODI Partners discussed recent developments in data reporting for their respective regions and from their member countries and economies, and shared feedback from selected national statisticians who have been participating in the beta launch of the JODI-Gas database.

The Conference was held amidst on-going calls from a broad cross-section of Energy Ministers, Statistics offices, data-users, and high-level bodies that for some time have been calling for the application of the JODI model to cover natural gas.
