

Training course on User-Friendly Dissemination of Statistics and use of PC-Axis Chisinau, Moldova

Representatives of the State Statistical Committee of the Republic of Azerbaijan Chimnaz Aliyeva – Deputy Head of Department of Quality Management and Information Technologies, Azar Ahmadov – Head of Sector of the Department of Data Dissemination, Elgun Khalilzadeh – Deputy Head of the Department on Application of Web-Technologies of the Main Computing

Centre participated in the training course on User-Friendly Dissemination of Statistics and Use of PC-AXIS organized by EFTA on 23-25 September, 2013 in Chisinau, Moldova. Technical Support in the organization of training course, provision of experts, and provision on other issues were organized by the employees of Central Statistical Offices of Norway and Denmark.

The main purpose of the training course was presentation of Programme PC-AXIS, its standards, studying of recent achievements, discussion of the programme and various visualisation tools and widely used methods for support of user-friendly dissemination of statistics.

Including representatives of Azerbaijan as well as representatives of National Statistical Bodies of Albania, Belarus, Bosnia, Croatia, Serbia, Moldova, Georgia, Ukraine, Turkey, Armenia participated in the training course.

During the training course the importance of Policy on Data dissemination and Release Calendar of Statistical Data in the National Statistical Bodies was reported. Also it was noted that, from 11 invited countries only the webpage of the State Statistical Committee of the Republic of Azerbaijan has got the Policy on Data Dissemination. Organizers in their presentations for the training course had used some of the schematic diagrams of the Policy on Data Dissemination of the State Statistical Committee.
