

## The State Statistical Committee carried out seminar in the framework of the INOGATE program

In the framework of INOGATE project the INOGATE Technical Secretariat expert group, comprising of 4 experts led by Mrs. Gloria Aguinaldo, conducted a seminar the aim of which was to provide with technical assistance the implementation of “National activity plan for energy statistics in Azerbaijan Republic”. The event took place in Baku, Azerbaijan from 16th to 20th September 2013

and has been hosted by the State Statistical Committee (SSC).

At the first day of the seminar Mr. Yusif Yusifov, Deputy Chairman welcomed delegation and informed about the progress achieved in the field of energy statistics during the last years. Mr. Hajibala Dadashov, Head of industry and construction statistics department made a speech about current situation of the energy statistics, organizational and methodological approach for collection and processing of statistical data on energy, the problems faced and ways of its solving in the frame of INOGATE. The experts of the INOGATE Technical Secretariat Ms. Alenka Kinderman and Mr. Damir Pesut made presentation. The wide discussions covered issues of energy statistics have been carried out by INOGATE Technical Secretariat’s expert group and employees of energy and construction statistics’ department of the Committee.

Seminarlarda The final meeting of the seminar with participation of the INOGATE Technical Secretariat expert group has been carried out by the Ministry of Industry and Energy of the Republic of Azerbaijan and involved participants from different organizations responsible for energy as well as representatives of the SSC.
